MOHSSINE AIT AMEUR

Systems and Network Administrator

Ben Guerir, Morocco | +212700180912 | mohssinaitameur03@gmail.com | LinkedIn: Mohssine Ait Ameur | Driving License B

PROFESSIONAL SUMMARY

Systems & Network Administrator with a Professional Bachelor's Degree in Systems, Networks and Cloud Engineering, and a BTS diploma in Computer Systems and Networks. Passionate and dedicated professional with strong adaptability and self-learning abilities. Highly motivated to join a dynamic team to develop my skills, leverage my technical expertise, and contribute effectively to the success of IT, cloud, and security infrastructure projects.

PROFESSIONAL EXPERIENCE

Systems Engineer 17/08/2026 – 31/10/2026
MCON Morocco Ltd (Convotis Cloud) – Fes, Morocco

- Managed TLS/SSL certificate renewals to ensure the security and continuity of IT services.
- Managed Docker-based deployments using Docker Compose.
- Evaluated Netlock RMM against the company's monitoring and remote management needs.
- Administered and maintained Linux systems.
- Provided IT support and handled tickets through Zammad.
- Contributed to project activities and assigned tasks through OpenProject.

Network Technician (Interim) 01/08/2024 – 30/06/2026
Axians IT Solution – Casablanca, Morocco

- Deployed high-density LAN/WLAN infrastructures.
- Deployed and configured multi-vendor network equipment, including switches, routers, Wi-Fi access points, and WLCs (Huawei, Cisco, Ruckus).
- Secured network perimeters with FortiGate and Huawei iSec firewalls.
- Deployed Hikvision and Bosch IP cameras, NVR servers, decoders, and video supervision via HikCentral / BVMS.
- Installed and configured video projectors for university and institutional sites.
- Integrated IP telephony (Alcatel), IP access control (IPevia), IPTV (Televes), and GPS-synchronized centralized clock systems (Gorgy).
- Set up centralized network supervision and monitoring with SolarWinds and Huawei eSight.
- Diagnosed and resolved LAN, WLAN, and WAN faults (TCP/IP, addressing, routing).
- Resolved Internet access problems, optimized connection speed, and eliminated Wi-Fi interference.

Key Projects: Grand Stade Adrar (Agadir), Al Madina Stadium (Rabat), Moulay Abdellah Olympic Stadium (Rabat), Multisports Hall (Rabat), Dar Al Phosphate (Marrakech), UM6SS / Mohammed VI Foundation (Casablanca, Bouskoura, Dakhla, Agadir, Marrakech).

IT Support Technician (Permanent Contract) 01/12/2023 – 30/06/2024
Telco-solution (Call Center) – Casablanca, Morocco

- Installed, configured, and maintained IT equipment (workstations, printers, and peripherals).
- Provided technical assistance and troubleshooting to users to ensure operational continuity.
- Managed local area networks (LAN) and monitored performance to ensure system stability.
- Managed and configured IP phones.
- Managed databases and administered CRM systems.

Network Technician Intern 01/08/2023 – 31/10/2023
Axians IT Solution – Marrakech, Morocco
UM6P Project – Ben Guerir:

- Participated in infrastructure deployment, network hardware diagnostics, and daily IT operations.
- Deployed and configured Cisco and Meraki switches and Wi-Fi access points.
- Deployed Bosch IP cameras.
- Deployed and configured Cisco IP phones.
- Assisted with the installation of network equipment.

EDUCATION

Professional Bachelor's Degree (LPU): Systems, Networks and Cloud Computing Engineering 2024 – 2025
Sultan Moulay Slimane University, Beni Mellal

BTS Diploma in Computer Systems and Networks 2021 – 2023
Lycée Mohammed V, Essaouira

Baccalaureate in Mechanical Sciences and Technologies 2020 – 2021
Lycée Rehamna, Benguerir

SKILLS

- **Cloud Computing:** Amazon Web Services (AWS - EC2, S3, VPC, IAM, Route 53, CloudFront), Cloud Infrastructure Administration.
- **Systems & Infrastructure:** Linux, Windows Server, Active Directory, Microsoft 365, Virtualization, Proxmox.
- **Networking:** LAN, WAN, VPN, IPSec, Routing & Switching, Wireless LAN Controllers (WLC).
- **Security & Firewalls:** pfSense, OPNsense, Fortinet, Huawei iSec, TLS/SSL Certificates.
- **Web Servers & Load Balancing:** Traefik, Nginx, AWS ALB/NLB.
- **Monitoring, Support & ITAM:** Zabbix, GLPI, SolarWinds, Huawei eSight, Network Monitoring, CCTV / Video Surveillance, IT Asset Management, Hardware Diagnostics, Troubleshooting.
- **Documentation:** Network Architecture Design & Technical Documentation.

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA)
- Cisco Certified CyberOps Associate (CBROPS)
- Fortinet Certified Associate
- Fortinet Certified Fundamentals
- IT Specialist – Cybersecurity
- IT Specialist – Cloud Computing
