PROFILE

Systems and Network Administrator, graduated and passionate, I am actively seeking a position where I can ensure the stability, security, and evolution of IT infrastructures.

EDUCATION

Professional License: Systems, Networks & Cloud Computing
Sultan Moulay Slimane University, Beni Mellal | 2024 – 2025

BTS in IT Systems and Networks
Lycée Mohammed V, Essaouira | 2021 – 2023

Baccalaureate in Mechanical Science & Technology
Lycée Rehamna, Rehamna | 2020 – 2021

EXPERIENCE

IT Network Technician (Agency Contract)
Axians IT Solution | Marrakech 2024 - 2026

- Network Infrastructure:** Managed the configuration, deployment, and maintenance of enterprise-grade switches, routers, and firewalls to ensure maximum uptime.
- Network Supervision:** Monitored network performance and traffic using supervision tools to proactively identify and resolve connectivity issues.
- Security & Surveillance:** Deployed and managed intelligent CCTV systems, utilizing AI-driven video analytics and integrated security protocols.
- Optimization:** Performed regular hardware audits and firmware updates to enhance network security and operational efficiency.

Technical Support Technician (CDI)
Telco-solution (Call centre) | Casablanca 2023 - 2024

- Hardware Management:** Installed, configured, and maintained IT hardware including workstations, printers, and peripheral devices.
- User Support:** Provided end-user technical assistance and troubleshooting to ensure operational continuity.
- Troubleshooting:** Diagnosed and resolved complex hardware and software failures.
- Infrastructure Oversight:** Managed Local Area Networks (LAN) and monitored system performance to ensure stability.

IT Network Technician Intern
Axians IT Solution | Marrakech July 2023 – Nov 2023

- Supported infrastructure deployment and network hardware diagnostics.

IT Network Technician Intern
Axians IT Solution | Marrakech May 2023 – June 2023

- Assisted in daily IT operations and network equipment setup.
